

## Nationwide Protection

Your Powertrain Plus Plan is honored in both the United States and Canada. Just call our toll-free number **(800) 331-3780** for instructions, 24 hours a day.

## Transferable

If you sell your vehicle, your Powertrain Plus Plan is transferable to the new owner. This enhances the resale value and is an excellent incentive to a potential buyer. (See your service contract for details.)

## Peace of Mind

Your Service Contract provides Peace of Mind Protection with the convenience of Visa for approved repairs should a covered breakdown occur while traveling more than 50 miles from home.

## Towing and Rental

**Towing** - Your Service Contract pays up to \$75 if your vehicle requires towing due to the failure of a covered part.

**Car Rental** - Rental reimbursement benefit up to \$250 while your vehicle is undergoing covered repairs. (See the schedule in your service contract.)

## Repairs

A Powertrain Plus Plan is your protection against the high cost of repairs.

Repair	Your Cost Without Extended Protection	Your Cost With Extended Protection*
Engine Assembly	\$2,500 - \$7,500	\$250
Transmission Assembly	\$1,500 - \$5,000	\$250
Drive Axle Assembly	\$600 - \$2,000	\$250
Front End	\$250 - \$1,600	\$250
Air Conditioning Assembly	\$600 - \$1,500	\$250
Power Steering Assembly	\$400 - \$1,000	\$250

\* Cost may vary depending on the contract purchased, nature of breakdown, and deductible selected.

These figures are based on an average of actual repairs performed nationwide and may not reflect prices for repairs to your particular vehicle.

## Extended Mileage Program for Pre-Owned Vehicles

## Affordable Mechanical Breakdown Protection for Your Pre-Owned Vehicle

protect it with a Powertrain Plus Plan.

Major mechanical breakdowns are usually unexpected and can be quite costly. A Powertrain Plus Plan keeps these costs under control and provides you with reassuring repair protection.

Two levels of coverage and terms up to three years allow you to choose the Plan that fits your needs at an affordable cost.

Coverage available on vehicles with up to 150,000 miles on the odometer at the time of the vehicle purchase.

You select the coverage and the time / mileage term that's best suited for your driving habits and intended length of ownership.

Coverage begins on the day you purchase the service contract.

## The Basic Plan

The Basic Plan is designed to provide solid protection at a reasonable cost. It's for the buyer who just needs coverage on the vehicle's most important and expensive mechanical components — the engine, transmission, and drive axle.

### ENGINE

All internal parts; timing gears, timing chain(s) or belt(s); timing belt tensioner(s); water pump; oil pump; fuel delivery pump; diesel engine vacuum pump; intake manifold(s); exhaust manifold(s); flywheel; flexplate; ring gear; harmonic balancer; engine mount(s); supercharger housing and internal parts. The following components are covered only if damaged by the failure of an internal part: engine block; cylinder heads; cylinder barrels; rotor housing; oil pan; valve cover(s); timing chain or belt cover.

### TRANSMISSION & TRANSFER CASE

All internal parts; torque converter; vacuum modulator; auxiliary cooler and its metal lines; overdrive units; transmission mount(s). The following components are covered only if damaged by the failure of an internal part: transmission case; transaxle case; transfer case.

### FRONT & REAR WHEEL DRIVE

Axle shafts and bearings; universal joints; constant velocity joints (except any damage to the constant velocity joint due to the failure of the sealing boot is not covered); tripod joints; stud axles; drive shaft and yokes. The following components are covered only if damaged by the failure of an internal part: final drive axle and axle housing(s) and all internal parts.

### ELECTRICAL

Alternator and pulley; voltage regulator; starter motor; solenoid and drive.

### AIR CONDITIONING

Compressor, clutch, coil and pulley; condenser; evaporator; accumulator; dryer. The expansion valve, orifice tube and POA valve are covered if required as a result of a **Mechanical Breakdown**.

### SEALS AND GASKETS

For all parts listed in the above named component groups until your vehicle reaches 100,000 miles as indicated on the odometer.

## The Deluxe Plan

The Deluxe Plan provides the highest level of mechanical breakdown protection for your pre-owned vehicle. All the covered parts and components are shown below:

### ENGINE

All internal parts; timing gears, timing chain(s) or belt(s); timing belt tensioner(s); water pump; oil pump; fuel delivery pump; diesel engine vacuum pump; intake manifold(s); exhaust manifold(s); flywheel; flexplate; ring gear; harmonic balancer; engine mount(s); supercharger housing and internal parts. The following components are covered only if damaged by the failure of an internal part: engine block; cylinder heads; cylinder barrels; rotor housing; oil pan; valve cover(s); timing chain or belt cover.

### TRANSMISSION & TRANSFER CASE

All internal parts; torque converter; vacuum modulator; auxiliary cooler and its metal lines; overdrive units; transmission mount(s). The following components are covered only if damaged by the failure of an internal part: transmission case; transaxle case; transfer case.

### FRONT & REAR WHEEL DRIVE

All internal parts; axle shafts and bearings; universal joints; constant velocity joints, tripod joints, stub axles (except any damage to the constant velocity joint due to the failure of a sealing boot is not covered); drive shaft and yokes. The following components are covered only if damaged by the failure of an internal part: final drive axle and axle housing(s).

### FRONT & REAR SUSPENSION

Upper and lower control arms and their shafts and bushings; ball joints; spindles; stabilizer bar, track bars and their bushings and links; torsion bars; hub bearings; wheel bearings.

### ELECTRICAL

Alternator and pulley; voltage regulator; starter motor; solenoid and drive; heater blower motor(s); wiper motor(s); neutral safety switch; ignition switch; turn signal switch; brake light switch; horn; horn relay; engine wiring harness; IAC motor; manually operated switches; transmission shift control processor; air conditioning/heater control head; power window motor and regulator; power seat motor.

### AIR CONDITIONING

Compressor, clutch, coil and pulley; condenser; evaporator; accumulator; dryer. The expansion valve, orifice tube and POA valve are covered if required as a result of a **Mechanical Breakdown**.

### STEERING

Steering gear housing and internal parts; rack & pinion housing and internal parts; rack & pinion mounting bushings; power steering pump; steering column shaft, coupling and bearings; pitman arm; idler arm; tie rod ends; drag link.

### BRAKING SYSTEM

Master cylinder; vacuum/hydraulic assist booster; wheel cylinders; disc brake caliper; proportioning valve; metal hydraulic lines and fittings; parking brake linkage, cables and backing plates. The following components are covered until **Your Vehicle** reaches 100,000 miles, as indicated on the odometer: ABS Control Unit; wheel sensors; pump motor; accumulator; actuator.

### FUEL SYSTEM

Fuel injector(s); fuel pump; fuel pressure regulator; fuel level sending unit; vacuum pump; metal fuel lines and fittings.

### COOLING SYSTEM

Electric fan motor; fan; viscous clutch drive.

### CHASSIS HARDWARE

Hood latch and cable; door/ hood/ trunk/ hatch hinges; glove box/console lock and latch; ignition lock and tumbler; manual window regulators.

### SEALS AND GASKETS

For all component parts listed of the following assemblies:

- Engine
- Transmission
- Transfer Case
- Drive Axle.

## ••• IMPORTANT •••

This brochure highlights the benefits of Powertrain Plus Protection Plans. This brochure should not be used to determine coverage. Please read the service contract for detailed coverages and exclusions.
